

AGARU -- Helping talent rise

www.agaru.me/enterprises

‘Great hospitality feels like love’

But how to deliver that? Can we prove it?

OUR GOAL

Helping hospitality enterprises know their customer experience & staff performance

WHO ARE WE?

We are a team of hospitality professionals based in Toronto, with decades of experience. We have seen the challenges of managing, hiring and finding a job. We think there has to be a better way.

HOW?

Customers vote for your staff using our webapp. With these votes we create a custom record of guest satisfaction. Finally objective metrics for hospitality.

Imagine combining Google reviews + linkedIn. Simple. Fast. Powerful.

WHY? Every interaction of customers and staff is a valuable opportunity to improve.

OUR DIFFERENCE

1. We reward customers and staff for participating in the customer experience.
2. Enable objective decisions, with metrics to back them up.
3. The votes help staff and companies work better with each other.

PRICE Sliding scale depending on staffing size

BENEFITS FOR ENTERPRISES

A report of your daily/weekly/monthly KPIs. **Know your talent.**

We setup a simple page for customers to vote for your enterprise (great for SEO)

You can share the record with your team to motivate and lead with facts.

Help troubleshoot customer interactions, beyond politics at work.

We support your staff with free training material, social recognition and feedback.

Also

- + Better customer feedback because it's always good to know how you can improve.
- + Hire pre-vouched talent (time saving)
- + Have your customers do marketing for you by sharing their experiences. Win-win-win.

**Agaru works ANYWHERE, ANYTIME, for ANYONE. We built this for you.
